INFORMATION TECHNOLOGY
SKILLS

Good application knowledge of MS Office, especially Excel and Word, Power Point and Internet Explorer that I use daily.

ARTISTIC SKILLS

Drawing and painting.
Interest in writing, poetry and music.

REFERENCES

Dr Roberto Vincenza, was employed by the Operative Unit of Oncology of the Hospital "Presidio Ospedaliero" in Crotona, directed by me, from 22/07/2014 to 28/08/2014. Nonetheless the short period, she was immediately able to carry out the duties of a Medical Director (former I° level); she was on guard, night and public holidays duties, working efficiently and independently, doing outpatient and "Day Hospital" activity, showing a great knowledge of her specialisation field, as well as of internal medicine and pain treatment, according to the assistance activity performed in the Unit of Oncology. She was able to interact with colleagues, nursing staff and patients, showing good relational skills.

dr Tullia Pranterà

Medical Director of the Operative Unit of Oncology – Hospital "Presidio Ospedaliero San Giovanni di Dio – Crotona

Tel.: +39 0962 92-4249 -4422 -4554; +393385427310

Crotona, 11 Feb 2015

I know the Dr. Vincenza Roberto since she has been entrusted to a fellowship funded by AIRC (the Italian Association for Cancer Research), aimed at carrying out research activities at the Complex Operative Unit of Oncology of the "Hospital Complex Company San Filippo Neri" in Rome, where I exercise my profession as Oncologist. During that year the Dr. Roberto, besides taking care of the study of AIRC, worked as a medical oncologist in the day-hospital and the in- and out-ward department of Oncology. She flanked me directly in caring of hospitalized patients in the in-ward department, so I was able to assess her competence, both as a doctor and as oncologist in the diagnosis and treatment of solid tumors and their complications, as well as her human qualities to understand and assist the patient. She is a very responsible and meticulous doctor, up to date on news in the field of oncology, methodical and well organized to handle stressful situations. She has

excellent ability to work in a group and build relationships with colleagues in other specialties, she has personally handled the drafting of multidisciplinary guidelines for the treatment of pancreatic cancer and lung cancer, in collaboration with other specialists within our hospital. She made good relations not only with the medical staff, but also with nurses and all other staff of our department, showing a great respect for all and arousing sympathy and esteem by all.
In the case you need any further information do not hesitate to contact me.

dr Maria Angela Lina Castellana
Specialist in Oncology and Specialist in Hematology
Senior Medical specialist in Oncology - Hospital Complex Company San Filippo Neri of Rome

Rome, 13 Oct 2014

Dr. Vincenza Roberto has worked under my supervision during the four years of the School of Specialization, and even before, for 2 years as a doctor who frequented voluntary. We worked together at "Sandro Pertini" hospital in Rome, Complex Operative Unit of Oncology, where she achieved an excellent experience in the diagnosis and treatment of solid tumors of adults and their possible complications. In addition to her clinical work, she has taught, along with me, for two years Oncology at the University of Rome "Tor Vergata" - degree course in Nursing, resulting in high esteem even by our students. She is an expert in all areas of clinical practice. Her skills in daily clinical work, as well as in clinical research qualified make her ready for a job in all areas of medical oncology. Theoretical knowledge of Dr. Vincenza Roberto is outstanding, her attitude towards patients is empathetic, she is a great doctor and a great oncologist. During her everyday work she shows a strong responsibility towards her patients, as a colleague she has a very nice and friendly personality, excellent team-worker, colleague who is open to help her coworkers in all time. She has good relationship with all the other medical doctors and nurses.
In the case you need any further information do not hesitate to contact me.

Rome, 24 Sep 2013

Dr. Vincenza Roberto was my student during the internship pre-enablement obtaining the maximum score (30/30) for her skill, diligence, preparation and willingness to learn. After enabling asked me to attend my office to learn further, getting good results so much that she has replaced me several times during the holiday periods, leaving a beautiful memory in my patients. Even during her specialization the hospital colleagues were impressed by her safety and convenience in managing the patient.
In the case you need any further information do not hesitate to contact me.
